History of Melissa Oil

The Melissa or Lemon balm has around 2500 years of history as mentioned in old history books which is proof of its existence in ages. Old Greeks and Romans used to have certain usage of this herb. In Ayurveda, India also has some usage of this herb but the text is in ancient Sanskrit language so it's a little hard to judge the exact date of research done by old Aadi Gurus of India. Indian civilization is around 5000 years old or maybe more and Melissa or Lemon Balm has an ancient touch for sure. This is found in ancient Greek polymath Theophrastus in his *Historia Plantarum* written in C 250 BC as honey-leaf which was Melissa /Lemon Balm. Lemon Balm come to proper use during the 700 century when domestic use of the same is found. Old European herbalist writers, poets, and scientists found it more useful.

Old German medicine such as Homeopathy has Melissa as the main ingredient in Carmelite water. The Aromatic Essential oil of Melissa is used in tooth-related products such as gargles and toothpaste. Also used in certain food products such as Ice cream and herbal green tea with peppermint tea. The major flavoring constituents are geraniol, geranial, caryophyllene, citronellal, etc.

Melissa Oil Culinary Use:

Aside from medical purposes, this oil can also be used in culinary as a flavoring. It can be added to drinks such as tea and the like.
